SUMMARY

An Information Technology graduate with a background in web development and manual software testing. Experienced in functional testing, UI testing, API testing, test case design, and defect reporting. Eager to develop professionally in software quality assurance and contribute to delivering reliable software products.

SKILLS

Testing: Web UI Testing, Functional Testing, API Testing, Test Case Design, Defect Reporting
Front-end: ReactJS, NextJS, TypeScript, JavaScript, HTML, CSS, Tailwind CSS
Back-end: NodeJS, RESTful APIs
Tools & Database: Postman, Git/GitHub, Jira, Figma, SQL Server, Microsoft Office, AI-assisted tools

EDUCATION

Ho Chi Minh City University of Technology and Education 2021 – 2025
Major in Software Engineering

- GPA: 3.23/4.0

EXPERIENCE

Manual Tester Intern, Healthcare Solution Viet Nam 09/2026 – Present

- Perform manual and functional testing for a hospital management system based on business requirements.
- Design and execute test cases, verify UI and data behavior, and retest fixed defects.
- Report and track defects using Jira; manage test data with Excel.

Frontend Developer Intern, FPT Software 06/2024 – 09/2024

- Collaborated in an 18-member Agile team to build a responsive Single Page Application (SPA) for an internal automation system.
- Implemented front-end features using ReactJS and Tailwind CSS with an emphasis on reusable components and scalable structure.
- Integrated RESTful APIs and dynamically rendered data according to functional specifications.
- Maintained code quality and improved UI performance to deliver a smoother user experience.

PROJECTS

CLOTHING E-COMMERCE MANAGEMENT 01/2025 - 06/2025

Frontend Developer & Manual Tester

- Developed a full-featured e-commerce admin dashboard with authentication, role-based access control, and CRUD operations for managing products, orders, and users.
- Implemented real-time features including chat support and analytics dashboards using WebSocket and data visualization tools.
- Designed and executed manual test cases for functional and UI testing, performed API testing with Postman, and reported defects with clear reproduction steps.
- Technologies: ReactJS, NextJS, Tailwind CSS, WebSocket, Postman.

BOOK WEBSITE 04/2026 - Present

Frontend Developer

- Developed a full-featured online bookstore platform with advanced search, category-based filtering, shopping cart, COD checkout, and order tracking.
- Implemented role-based access control (Admin/User) and built an admin dashboard for managing books,

categories, inventory, users, and orders.
- Integrated RESTful APIs and optimized state management for dynamic data rendering and responsive user interactions.
- Collaborated on UI/UX improvements to enhance usability and customer shopping experience.
- Technologies: ReactJS, Tailwind CSS.

ACTIVITIES

- Awarded a Consolation Prize in Cyber Security CTF Competition 2023 at HCMUTE.
- Participated in the ASEAN Student Contest on Information Security (ASCIS) 2023.
- Competed in the Mastering IT Academic Competition 2025 at HCMUTE.

LANGUAGES

English: TOEIC 640 (Listening & Reading).
